LOCAL HAPPENINGS.

Mr. J. V. Vickers was among the number laid up at Yuma by the washout.

The EPITAPH job office is now turning out some of the best work ever seen in Tombstone.

Jesus Mavanto, the eleven-year-old boy who lost his legs last week by being ran over by the cars at Nogales, has since died.

Indications are that there will be no trains from the west for a week longer. At present Tombstone is isolated from the outside world.

For your Sunday dinner, be sure to take in either the Elite or Gregory's restaurants. Both are first-class and deserve your patronage.

Mrs. C. W. Leach, Mrs. H. J. Peto and Mrs. H. G. Howe, who intended to leave for the East this week, were delayed by the washouts.

Mrs. C. H. Arnold and her children were "snowed in" for several days at Yuma this week. At the present writing she was in Tucson, the trains running that far.

Mr. Theodore F. White, of the Chiricahua Cattle Company, is at his El Dorado ranch, having recently come from San Diego. He went by the way of Wilcox.

The Board of Supervisors, through Sheriff Slaughter, have offered a reward of \$500 for the arrest and conviction of the murderer of Nicholas McCormick. Commendable.

An active movement is on foot to secure a minister for the Presbyterian church, the pulpit of which has been vacant for four years. Another evidence of the coming boom.

The thanks of the EPITAPH are hereby tendered to the kind friends who have rallied to its support. If business prospects continue to brighten the daily edition will soon be resumed.

W. J. Abbott, who has been confined in the county jail for more than a year on a charge of swindling, was released this week. It seems strange that a man with his unlimited resources should thus languish in the bastille.

Mrs. F. S. Earle who left last Spring in company with her sister, Miss Miller, on a trip East by the way of the Isthmus, will return about the 25th inst. and spend a few days among friends, when she goes to Tempe to join her husband.

W. S. Cole, a man well known and respected in this community, died very suddenly on Friday about 11 o'clock, at the County Hospital. He had been complaining for three or four days of feeling unwell, but nothing serious was thought of the matter until Thursday, when he was removed to the hospital.

Dr. Dunn, county physician, pronounces the disease typhoid malarial fever. The funeral will take place to-morrow (Sunday) at 2 p. m., under the auspices of the Knights of Pythias and Patriotic Sons of America, of which orders deceased was a member.

Latest from the Washouts.
From Bob Darrach, who came up from the railroad this morning, the EPITAPH learns there is no prospect of a mail before Monday or Tuesday. Two hundred men are at work at the big washout near Pantano, which is fifty feet deep and a thousand feet long, and it is impossible to tell when the fill will be completed. A new washout near Lordsburg delays western bound trains. The Phenix and Maricopa road is badly injured, and it will take a week to repair it.

We are getting there with both feet.
Mr. A. Barnett returned yesterday from Globe.

Read the County Treasurer's notice in another column.

Indications are that within a week or ten days the only daily in this camp will be in the District Clerk's office.

Mr. L. J. Gird returned yesterday from New York. He came across the country from Wilcox by private conveyance.

The EPITAPH has been let into some of the inside workings of our city authorities and intends to ventilate the matter at an early date.

Superintendent Richards, of the New Mexico and Arizona Railroad, accompanied by his family, came up on today's coach.

The Hebrew feast of Rosh Hashana will commence to-morrow (Sunday) at 6 p. m., and will last twenty-four hours. It will be duly observed by our Jewish fellow-citizens, who will close their places of business.

Dick Trezona and wife leave Liver-pool this week for Tombstone. Dick made considerable money in chloriding on the Mamie, and wisely considered he could not do a better thing than by spending a portion of it in a trip to Merry England to see the old folks.

Miss Sharkey, of Oroville, Cal., who has been visiting her uncle, Col. Mike Gray, on his ranch, and her aunt, Mrs. Wm. McFarland, in this city, leaves this week for home by the way of Phenix, where she visits another aunt. Miss Sharkey leaves some aching hearts behind her.

The main washout, which has left us without mail communication the entire week, was at the Cienega, between Pantano and Tucson, where the road-bed and bridges were washed away for a distance of nine miles. Another washout between Dragon Summit and Benson delayed western-bound trains.

The Prospector has discovered another mare's nest. It finds out by the records that Judge G. G. Berry has located a ranch in Rucker Canyon, and claims 100,000 inches of water flowing therein, and purposes to utilize the same for irrigation. While the EPITAPH takes no particular interest in Judge Berry or his schemes, it fails to see in what respect the present enterprise is anything but a commendable one.

Rev. Geo. L. Pearson, who has presided over the destinies of the Methodist church of this city for the past two years with much success, will attend the conference at Tucson on the 22d inst. Through inexorable rules of the Church it is feared he may not be returned to this place. It is his own desire and that of the entire community, who have learned to esteem not only him but his estimable wife, that he should be returned. Mr. Pearson has placed the church on an excellent footing and has done much good, and hence it does seem that his wishes and the wishes of the people of Tombstone should be respected.

Since the above was put in type the EPITAPH is informed that Conference has been postponed until October 13th, on account of the Bishop, J. M. Walden, not being able to be present at the time first appointed.

LETTER LIST.

The following letters remain uncalled for in the post-office at Tombstone, Arizona, for the week ending September 17, 1887:

Carr, T. F.	Gounan, George
Chason, A. B.	Hines, J. B.
Clark, Mrs. Edith	Hanley, C. M.
Cook, Elias	Meyers, L. N.
Cooper, John	Parker, Edmund
Cook, C. W.	Prescott, Mrs. Georgia
Fishback, Henry	Schild, Herman
	West, Mrs. Maria

SPANISH
Felipe, Degollado
Santiago, Garsilla
Any person calling for any of the above letters will please say "advertised" and give the date.
C. S. CLARK,
Postmaster.

The celebrated J. H. White butter can be bought only at Wolcott's. This is its edge.

New Store.
Paul Bahn is offering to the people of Tombstone and the county in general, some of the best bargains in groceries and liquors ever offered in this county. His stock is new fresh and desirable canned goods, wines, candles, in fact everything sold in a first class grocery store is being sold by him at Fairbank prices.

The best butter in town at Wolcott's The J. H. White brand.

RICH DEVELOPMENTS.

IMPORTANT STRIKES REPORTED.

The Contention-Grand Central Lode Supposed to Have Been Struck in the North Point—Opening Up the Big Body in the Lucky Cuss.

A trip over the district on Thursday of this week convinced an EPITAPH reporter that unusual activity existed in mining. A number of new enterprises are fairly under way, notably the new works on the Lucky Cuss, property of the T. M. and M. company, and the Old Guard mill and hoist. Important strikes have been made on the north end of the Contention lode in the Silver Thread and North Point, properties of the Grand Central Company. Taken altogether, the outlook for the camp has not been so bright for years as it is to-day.

GRAND CENTRAL CON. M. CO.
In drifting from the Silver Thread shaft into North Point ground, in 275 feet and 225 feet from the surface, a nice vein of ore has cut, running north and south on the strike of the great lode of the camp. At present it is not large nor very rich, and yet is important in showing that the vein runs under the east end of the town. The wash and cement overlies the ore and country rock to a depth of 75 feet, as shown by the new shaft recently started on the North Point. This now has 115 feet timbered and will only be sunk to a connection for air. The mine will be worked through the Silver Thread hoist. The newly discovered vein is separate and distinct from the Silver Thread ore body, from which the usual amount is being extracted.

Other properties of the Grand Central company are being worked vigorously. The State of Maine is producing its 50 tons of ore per day; the Emerald has large reserves, and is systematically opened from end to end on four levels nearly to the water, over 600 feet deep. The levels are being extended to the Silver Plume, under bond to the company, and the same regularity of vein exists.

The shaft on the Boss will be driven to water, and has only 150 feet to go. This mine is small, both in vein and surface area, but is well named. Its principal product is silver.

The old mine, from which the company takes its name, is producing from ten to twelve tons of ore per day from the first and third levels, the new shaft being completed to the latter. The report that it had closed down is utterly without foundation. It became necessary to remove the night engineer to another hoist, and at present the day engineer is doing all the hoisting, but the usual shifts are at work in the mine and no man has been discharged; in fact, new ones are constantly being employed. The pay roll, was larger for the month of August just passed than it ever has been for a like period, even when wages were higher. The mill on the river is kept constantly running with twenty stamps, and there is no prospect of a let up.

As a well-known mining man remarked, "It's pretty good mining that pays its own way." This the Grand Central is doing, which, considering the great outlay on new works and new machinery, to say nothing of the great amount of dead work done and the large reserves in sight, reflects great credit on the management.

LUCKY CUSS.

The new double compartment shaft of this grand property of the T. M. & M. Co. is now down 31 feet, and has nearly 175 feet further to go before striking the large ore body developed from the prospect shaft some 200 feet west. The machinery from the Girard hoist is to be put on this shaft, and much of it is now on the ground. Quite a large force of men are at work about the place, framing timbers, digging foundations, etc., and a scene of activity is presented. Important developments may be expected as soon as the shaft reaches the depth of 200 feet.

COPPER QUEEN.

Mr. Lewis Williams, of the Copper Queen Mining Company, was in town this week. From him it was learned that the Queen smelters closed down last Sunday on account of a lack of coke, but will start up again on Monday next. The new too-ton furnace was a pronounced success, and results exceeded expectations. It will be run in future in connection with the smaller one, using up about 150 tons of ore per day, and producing from fifteen to sixteen tons of bullion. This is one of the greatest copper properties the world ever saw, and Cochise county is justly proud of it.

THE CONTENTION MINE.
Of this camp, has paid its owners \$2,662,500 in dividends. The company has valuable hoisting and pumping machinery on the ground, and work was only stopped on account of the burning of the Grand Central pumps, in conjunction with which water was being raised from the great lode. The EPITAPH has it from what it considers reliable authority that work will soon be resumed on the Contention.

OLD GUARD.

Since the last visit of the reporter, two weeks ago, much work has been done on the surface and a corresponding amount in enlarging the main shaft. The new office and the two other buildings are nearly completed; the grade for the mill is also nearly finished, and the foundation for the hoisting works ready for the machinery. Delay has been caused by the

washouts on the railroad and the bad condition of the roads between this city and Ash Canyon, from which place the mill is being removed, and consequently but little of the machinery is on the ground, but it is expected this week will see a different state of affairs. The superintendent is rushing things as rapidly as possible.

BUNKER HILL.

In extending the drift past the stope on the second level, a nice body of ore was encountered on Thursday. Now crosscutting on second and third levels in Mammoth ground, into which the Bunker Hill drifts have been extended. Good ore discovered in the drift from the third level in Mammoth. If survey is correct, connection will be made today on the fourth level with the winze from the third, which will give good air in the drifts.

We are now prepared to draw drafts direct, issue letters of credit, and transfer money by mail, and cable, on all points of Europe, Asia, Africa and Australia.

R. W. WOOD,
Cashier
Bank of Tombstone

Horses taken to pasture by G. W. Trull, at the Boston Mill Ranch, for \$3 per month.

Climax chewing tobacco only 50 cents a plug at the Willows cigar store.

Wolcott buys and sells for cash and hence cannot be undersold.

The EPITAPH has the very best facilities for doing every variety of job printing. Work will be finished when promised, in the highest style of the typographic art, and at the lowest living prices.

F. N. Wolcott's Cash Store is now ready for business at the new location in the Otis building, on Fremont street, near the Postoffice. The choicest and freshest groceries at the lowest cash prices.

Quarantine Proclamation

TERRITORY OF ARIZONA,
EXECUTIVE DEPARTMENT,
OFFICE OF THE GOVERNOR.

Whereas, the Live Stock Sanitary Commission of the Territory have officially certified that they have reason to believe that conditions have existed and continue to exist which render animals of the bovine species from the continent of Europe and the Republic of Mexico liable to convey disease, and request a quarantine to be established against said localities.

Now, therefore, I, C. Meyer Zulick, Governor of the Territory of Arizona, by virtue of the authority of law in me vested, do hereby order, establish and declare a Quarantine, to take effect immediately, against the Continent of Europe and the Republic of Mexico, on all bovine cattle from said localities coming into the Territory of Arizona, unless they are quarantined at the ports of entry prescribed by the Rules and Regulations of the Live Stock Sanitary Commission of Arizona, for a period of NINETY DAYS, and retained there until they shall receive a certificate of health signed by the Veterinary Surgeon of the Territory of Arizona, or some duly authorized deputy under him.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Territory to be hereto affixed.
Done at Prescott, the Capital, this Eighteenth day of August, A. D. 1887.
C. MEYER ZULICK.

By the Governor:
JAS. A. BAYARD,
Secretary of the Territory.
